AZPS - Elementary

Department message:

AZPS Elementary, our commitment is empowering individuals to be successful through high expectations in a place of pride where achievement is inspired by caring, effective instructions, and respect.

Our Core Value for this month is

RESPECT

We seek an inclusive and welcoming environment for all through behavior that shows empathy and care for others.

We Respect
Old people

نحن نحترم كبار السن

Khalid Abubaker 3-5

Project

At Elementary AZPS, students will create ONE PROJECT that takes all the regular academic subjects required of Elementary students, including English, Math, and Science. Finding ways to collaborate and integrate academic content through projects that span multiple disciplines.

We have found that student interest helps to drive their learning in many of the academic areas. When collaborating and building these connections into the curriculum, students thrive, feel more engaged in the learning,

One dream, one passion, Arabs to Mars. Our students are sending their warm congratulations to the UAE on achieving the dream of Sheikh Zayed. The hope Probe is now in Mars.

Students are able to use division to determine the size and number in each group when number and size are unknown

Students were conducting an experiment to test if magnet would attract or repeal the materials such as (aluminum, coins, plastic, spoon, metal spoon)
